

In celebration of the Gopher Campfire Conservation Clubs first 100 Years, we commissioned artist David Chapman to create a painting that exemplifies who we are and what we represent. The scene created from our Wildlife Sanctuary shows a beautiful Autumn setting with rays of sun light streaming through a beautiful early dusk sky. In honor of our own Les Kouba, Chapman painted a flock of 13 geese setting their wings for a landing while other critters who inhabit the sanctuary look on. In the lower corners Chapman painted the stoic likeness of our Club founders Carlos Avery and Sam G. Anderson. Encompassing the border are icons that represent our clubs activities as well as critters that one may see living in and around the sanctuary.

Beneath our mascot centered on the lower border is the clubs famous motto:  
 “LAY ON, MACDUFF, AND DAMN’D BE HE THAT FIRST CRIES, ”HOLD, ENOUGH!”

What better way to support and celebrate the first 100 Years of Gopher Campfire than to purchase this very historic collectable limited edition print honoring our club.

The signed and numbered edition will be limited to only 250 prints. Order yours now.
